

Superior 4WD Servicing

Todd Avers has been well known in the automotive industry for over 20 years. He has worked within dealerships with Jeep, Dodge/Chrysler products and even awarded Queensland Service Manager of the Year in 2005. Nothing at all has changed since opening his own business, with wife Sarah, in his commitment to customer service and ensuring meticulous work is carried out on each vehicle.

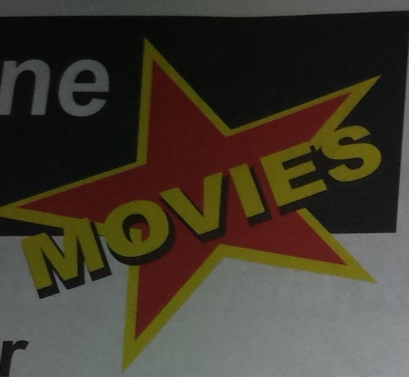

Seven Slot Off Road has become a driving force for Jeep customers in a very short time, being able to do everything from logbook servicing to full kit-outs using a range of premium products featuring; AEV, ARB, WARN, Mopar, UPOL, Smittybilt and EFS. The business is partnered with Melbourne-based JeepKconnect to ensure access to a huge range of quality parts. Todd is also covering all bases in the tyre sector by being a dealer for Cooper, Kuhmo, Summit and Nitto.

Todd Avers in his element

Todd's knowledge goes further than just the garage; he's also an experienced Trail Guide and has conducted tours both in Australia and over in the USA previously. Todd attends many Jeep events and if someone has something wrong with their Jeep, they call on Mr Seven Slot, as he has recently been aptly named.

Whether it be for a minor vehicle service, a complete Overlander build, or a competition rock crawler, if you would like to know more about Seven Slot Off Road, or see the action for yourself, feel free to pop into 11/10 Burnside Road, Ormeau and have a coffee and chat with Todd and Sarah.
